under direction of Prof. Ortiz: Commercial and Industrial Exposition of Socorro and Central New Mexico; Socorro Horribles, Private Carriages and Citizens afoot.

The music was furnished gratis for The music was furnished gratis for the day by the cornet band and was pertecularly good. The G. A. R. mustered about twenty-five veterans, few in number but worthy of the grand historic body to which they belong. The may was represented by sailors from the New Ironsides and steamer Fort Jackson and the Spanish element in the old army was represented by Senior Don Luis Baca. Allheads were uncovered as they approached

Tell DeBann will call meetings during this month in the several precincts, for the purpose of naming school directors to each, as the law requires.

Mr. E. Wilder, treasurer A. T. & S. F. road came from the South in special coach on Saturday morning, but was abliged to law over here until washout above was repaired.

N. G. ayson, of the drin of Grayson. & Co., atock dealers near Palomas, was in this city on hast Saturday, and did not have before adding his name to our subscription interfered to the Mr. E. church on next Sanday evening. A new organization of the choir will furnish excellent unies for the occasion, after which the paster Rev. D. W. Potter will take a vacation of four weeks.

Por dogs Socorre is ahead. She can boast of a greater variety and more to the square inch than any other city in the West. In fact it is the dog gondest place on earth, and nothing short of a dog famine will relieve us

A box of delicious soda water found its way into this office with the compliments of Maj, A. J. Bahaey, who is now agent and manager of the soila factory of this

were furnished and decorated by Mr. Jacob Sengerly.

Just such an exhibit as a cosmopolitan American likes to see was furnished among the bancers, streamers, badges and unaffected enthusiasm under the ieud of Prof. Ortiz It was a charming array and deeply suggestive. The large number of children of all civilized races united in the public schools of the southwest coforce a strong reminder that too much care can not be exercised in giving direction to the public school system of this part of the country.

In that division of the procession

which followed, the business interests of Socorro were but partially represented, yet the line was long and highly creditable to the participants. The rest of the city will be represented next year without doubt.

Among the business houses represent-

ton, with a wagon containing a repre-sentation of their business with a fine display of boots and shoes; and workman hammering away as the procession moved along. Next came a representation of the fine establishment of M. B. Mentre, twholesale and retail dealer in I move is on foot and fairly organized to establish a fair association here for the benefit of the county. The ground for that purpose has been secured by several prominent gentlemen, and a full report on the subject has been hunded us but was aubmitted too late for publication.

Tom C. Williams, one of the most prominent and enterprising citizens of White Oaks, called on us this week. Tom has an eye to husiness and has decided that Socorro is the place. Should he decide to go into business here this city can count on one more good citizen who is liberal, public spirited and full of energy.

Judge Prince honored this office with his pleasant countenance on last Monday, He was the closen orator of 'he day on the 4th at Silver City, and on his return got water bound here and had to lay over for several bours. The Judge is coasid.

desiers, followed next with a fine display, representing their popular house. Then came John Egger, who is always public-spirited and full of enterprise, with a fine display of saddles and harness, fully representing the business of his establishment. Young & Bell, the popular wholesale and ratail butchers, came next with a car decorated with comic and laughable caricatures (reflecting a little on us Dutch) with a fine, live call elevated above all, representing the kind of meat they sell. Messrs. Moore and Gause, livery men, were also out in line with their omnibusses, showing that they Gause, livery men, were also cut is line with their omnibusses, showing that they are still doing the principal business in their line. The large establishment of Leavitt & Warson was also represented by a fine array of beautiful window shades and other articles kept in their line of business. One of the most laughable and happy hits in the procession was J. E. Boss' burlesque representation of 'Socorro Enterprise,' which consisted of an old fashioned, two-whealed cart, decorated by an old, greezy canvass, drawn by two old, poor ozen, with two burros, in the lead and, while it was not intended to reflect upon any one or any particular class of our citizens, yet it was suggestive in many respects to the former conditions of things and the general lack of public spirit heretofore existing.

The Horribles were borribly successful and whether they represented a materialized nightmare or embodied a rure selection from the visions of Fuck, it is certain that the laughter they provoked aupplied good digestion to all who saw them. The credit of designing and furnishing this part of the procession is due Auctioneer.

Hop Sing Ab Les having raised the price of washing I have determined to all undershire at 20 cents spicer at the city answer house on Court arest. St.

by devotion to the United States govern-

Profile, none were more characterized by devotion to the United States government and the progressive spirit of our time. Replete with food for thought and maintaining the most advanced and liberal sentiments on matters of public policy, particularly applied to the southwest, these orations challenged the respectful consideration of all who heard them. Judged by the eloquent effort of Don Luis Baca, our flag has no supporters more devoted, intelligent and desirous of liberal progress than the Spanish American citizens of the southwest. The orations would be perfectly at home on Plymouth Rock or at Yorktown.

Col. R. E. Stapleton roused enthusman by his reminiscences of early times in this country and the cornet band filled in the exercises with good music. An interesting little incident, not on the program, occurred at the close of the averoises, when the two little halies who had represented Texas and New Jersey were called to the atand. In a few telling words, the president of the meeting announced that a number of adopted citizens of New Mexico, from each of these states, desirous of expressing their affection for the far-off homes of their child-hood, had placed in his hands appropriate mementoes to be presented to the representatives of those states in the Triumphal Car of Columbia. Accordingly, the little Texas girl received a lone star of solid gold and New Jersey was presented with a beautiful chain of silver. After a few eloquent remarks by the president, Mr. J. Smith Sniffeu, the ceremonies were brought to a close by three rousing cherts for "the blue and the gray." Capt. Jack Crawford was conspicuous by his unavoidable absence but succeeded in reaching the city in the afternoon, when the citizens again assembled to isten to

his unavoidable absence but succeeded in reaching the city in the afternoon, when the citzens again assembled to listen to his peem, written for the occasion.

The afternoon was devoted to lighter modes of entertailment on the plaza, consisting in greased pile, foot race, sack race, greased pile, slow burror race, ring tourney etc., in which all hands joined and the utmost good feeling prevailed. In the evening fire works, music and dancing filled up the time till the day passed into history.

Following is a list of the committees. J. Smith Smiffen, General Manager.

In allowing all this, it de-rogates from the credit of none to say be given to the energy, tact and execu-tive ability of Mr. J. Smith Sniffen, ably seconded by Mrs. Henry Lockbact and

ther daughters.

The necessary printing was furnished gratis by Prof. Chas. Longuomace, who is always on hand, fu'l of progress and

Viewed from any standpoint, the influence of this celebration is destined to be ence of this celebration is destined to be of lasting and substantial benefit to this part of the Territory. In the successful outcome of the project the citizens of Socorro have arroused public spirit into action and learned the power and value of determined narmonious edont for progress of public welfare, in bringing all classes of American citizens to participate in the solemitles and onlymenta commemorative of an occasion sacred to all. Much has been done to break down the barriers of mutual distrust and misunderstanding between prominent classes, and lay the foundation for conciliation and sarmony which is an absolute condition of future progress and the future welfare of the Territory. On the Secorro plaza the native and adopted citizens of New Mexico met half way this 4th of July on commem ground, and it 4th of July on common ground, and it should be the solicitous care of all good people to see that anither class has reason to retreat from the position. The good results to Sarotro cannot be overestimated

Address of Don Julian Trujillo on the 4th of July at Socorto. (Translated for the Chieftain.)

Labres and Gentlemen: This day we have assembled in our dear and pros-perous city, with an object, the most sa-cred as well as the most pleasant to ev-

cred as well as the most pleasant to every true patriot.

Favorite children of the thrice blessed America: Noble offspring of the fruitful trank of American independence. This day we celebrate the fortunate analysesary of our political birth.

One bundred and sight years ago, almost half a hundred of the fathers of the country unted themselves in order to agree, and inspired by Him who rules the destines of the universe did agree in laying the foundations of the wonderful monument of our nationality, making known to the civilized world of modern times the fundamental principles of our organization, by presenting to the four quarters of the globe the immortal Declaration of Independence, by which means the sons of the country should for ever engrave upon their hearts, the moever engrave upon their hearts, the more anch a step, and the principles we should adhere to in order to preserve integral and intact our political existance, and harmless from the suares and artifices of

With an abundant reason, may we congratuinte and compliment one another on this day, because we still see blooming and boaring fruit the juxuriant tree of our

wonder and admiration of the most powerful and implicity of European kingdon a social, business or political point of view, the array of crirrens with their families was creditable and reassuring in the extreme and all the there so from the absolute of all the there so from the absolute of all the there so from the long procession by the marshals of the day, Messrs Price, Chavez, Simpson, and Absyris, untiler the general management, of chief murshal alters Case.

After Marching through the principal altersts of the clay, the procession came to a close in the Park House grove, where in further ceremonies were to be conducted. After a prayer by the Rev. Ehist Robinson, the Declaration of Independence was read by Judge Shaw in English and afterwards remiered in Spanish by Seniors Don Luis Baca and Juhan Trajillo. Then came the orations, the principal features of the day by Seniors Don Luis Baca and Juhan Trajillo. It is asfe to say that of all the speeches made in the courtry on the Petition of the Courtry on the Petition of the courtry on the principal features of the day by Seniors Don Luis Baca and Juhan Trajillo. Then came the orations the principal features of the day by Seniors Don Luis Baca and Juhan Trajillo. It is asfe to say that of all the speeches made in the courtry on the Petition of the United States government.

In liberty, its bound to the United States government and the progressive spirit of our old tyrants. Worthy our love is liberty, its acquidation worty of the great.

of our old tyrants. Worthy our love is liberty, its acquisition worty of the great, est sacrifices.

But, my dear follow citizens, liberty, as has already been well proven, with the development of its guaranters, would be as nothing to us without union. There are two Sufers so, mindful of our welfare so solicitous of our human felicity, that in order that we may only wholly the benefits of our Republican institutions, these sisters must go hand in hand. Liberty and union says the immortal Webster, one and inseparable forever.

Here on our virgin sell, where our fathers deposited the seeds of a Republican government, the most powerful the world now knows, all that are oppressed and unfortanate, even humble slaves have and receive an agreeable welcome. To all is vouchanted the same equality in rights, to the poor as to the richs to the jearned as to the ignoranti to the black as to the white, to the Etheopean as to the Caucasian; to the always as to the freeman.

Once regenerated by means of natural

black as to the white, to the Etheopean as to the Caucasian; to the siave as to the freeman.

Once regenerated by means of natural ization in the prodigious Republic, the cradle of great geniuses that are the wonder of the civilization of the most enlightened nineteenth century. All its citizens are equal. Here there is no other antical interest in what of the universe we first saw the light of day. By means of the union, without which liberty is but a chimera, we all compose one single body, and as a body we should co-operate for the prolongation and felicity of our political existence. As the least injury to the most insignificant member of our phlacel body is f. it by all of the other members so must every good citizen feel the wrong or misfortune of every other.

Put aside forever ephemeral questions of races; aside all antagenisms and asimosities; let us banish forever the ideas and arguments of false demagogues, who would propogate strife and differences of opinion. Let us be one and the same in our deliberations; one and the same in our social treatment of each other; one and the same in our deliberations; one and the same in our social reatment of each other; one and the same in our deliberations; one and the same in our deliberations of the most one.

tions sovereigns of the East would wish to possess.

Would to heaven, that these my feeble words, could touch the hearts, not only of my hearers but of every one of the inhabitants of our Territory.

Let the celebration of this glorious 4th of July in 1884, mark a new era in our civic feedlings. Let us cast into eternal oblivion all past differences and displeasures, and from this day hence, as we are by nationality, let us be from our heart and truly pure Americans; chilisten of a common country; as magnanimous Americans, let us procure the common welfare without harboring any gradges; let us procure the public aggrandizement of our institutions. Such is the forcent prayer and the earnest wish of the most unworthy, of your fellow citizens.

Let us for a moment look, my dear fellow-citizens, at the great benefits derived

shatically that special credit should | low-citizens, at the great benefits deriver from following the principles of our in

from tollowing the principles of our in-dependence.

From thirteen poor colonies, who con-federated thomselves in 1776, to form an isolated Republic, far away at the time from the rich and divilized centers of the Old World, who in those troublous times would care to predict the wonderful suc-

old World, who in those troublous times would care to predict the wonderful success of the present.

From thirteen poor colonies, we this day admire thirty-eight rich, powerful and respected States, ton populous Territories, and last but not the least, the pet of the sisterhood of States, the seat of our government, the fortunate District of Columbia, wherein the discharge of their duties reside the powers of our government. We are ahead of every foreign nation in everything, except in the instruments of warfare and destruction. Our resources are immense, their devalopment infinite. Everything in the United States is grand. Not a thing is done acre on a small scale. Look at our academic institutions, which have already sent forth men to learned in the different branches of science, who, by comparison, lose nothing by the side of the most illustrious Europeans.

Our manufacturers are colosuses of their kind, their use, wherever applied; renders immense returns.

renders immense returns. Our machineries are known in every part of the globe.

Our lines of communication, by means of Telegraphy, extend throughout both hemispheres. And though last, the greatest and most beneficial, is our rail road system, which, like the arteries in a body, gives life and support to every section of our country from the Atlantic to the Pacific; from Alaska to the duif of Maxico.

of Mexico.

Grand and magnificent work, which from one day to another could transport the whole population of New York on the Atlantic to San Francisco on the Pacific. We, in our imagination, have no idea of such greathers.

Our government has ample means at its disposal, ready to render immediate help when necessary to any locality.

Our power is respected and acknowle get in the world. And to what do we own all this? To the proper observance of the fundamental principles of our ladepondence, to liberty and union. Due to these armiets of our political life, we this day onloy all of these blessings and happiness.

this day enjoy all of these blessings and lappiness.

Let us forever maintain the union, and thus will we enjoy for long years, the blessings granted to us by the benign laws of our governing powers.

Let us all carnestly ociebrate this, as every succeeding amoversary that God may grust us life to see, of the glorious 4th of July. And let the echos of the expression of our joy, be heard throughout the Earth, exclaiming. Long live and forever the American union! Long live and forever the amorty of the this of July! Long live and forever the memory of the lessnorth Washington, and all of his worthy successors.
